# CurcuMore

---

Thanks to the advancement of science and medicine, today's life expectancy is higher than ever. But while we are living longer, we aren't necessarily seeing improvements to how we live in our advanced years. Rather than adopting good habits that can help sustain our health, many Americans are spending the latter part of their lives plagued by health challenges which greatly diminish quality of life. The good news is that researchers have discovered that curcumin, the key active compound found in turmeric, possesses impressive health boosting properties that can help you maintain a lifetime of vibrant health.\*

NHT Global's CurcuMore channels the power of curcumin to strengthen the crucial functions needed for healthy aging, including blood vessel health, circulation, antioxidant defense and a normal healthy inflammatory response.\* It's uniquely formulated with a patented and clinically studied form of curcumin that is 31 times more bioavailable than standard curcumin, making it more long-lasting and more effective than other curcumin products in the market. Combined with additional age-defying antioxidants such as green tea and grape seed extract, CurcuMore gives you the support you need to get the most out of life from age 20 to 100.

---

# KEY INGREDIENTS

An extract of turmeric root, a bright yellow *“super spice”* with a long history of use in Ayurvedic and traditional Chinese medicine.

Curcumin is the key active compound that gives turmeric its golden color and impressive health boosting properties.

An extensively researched ingredient that has been shown to benefit multiple aspects of human health - from the heart and joints to cognition and supporting the body's normal healthy inflammatory response.\*

## Black Pepper Extract

A patented extract of black pepper containing piperine, a bioactive compound shown to increase the bioavailability (and absorption) of curcumin

## Grape Seed Extract

An antioxidant that may help improve blood flow and circulation and support the body's normal healthy inflammatory response.\*

## Green Tea Extract

Contains EGCG, a powerful catechin shown to help protect cells against harmful free radicals\*

**31x**  
more bioavailable

We've formulated CurcuMore with a patented and clinically studied form of curcumin called **UltraSOL™ Curcumin**, which is proven to be **31 times more bioavailable**. It undergoes a specialized process which protects and enhances the delivery of curcuminoids over an extended period of time, making it more soluble and more long-lasting than other curcumin products in the market.

# KEY BENEFITS

The key ingredients found in CurcuMore have been found to...

-  Support a normal healthy inflammatory response\*
-  Encourage healthy blood flow\*
-  Provide antioxidant protection against harmful free radicals\*
-  Promote blood vessel health\*
-  Support healthy aging\*
