AIRELLE®

INSPIRED BY HOLLYWOOD. FOUNDED ON SCIENCE.

Airelle® was born out of a collaboration between a Dermatology Physician Assistant and a Hollywood Director. Working closely with celebrity makeup artists, the main goal was to develop a powerful skin care solution that could be used behind the scenes to help celebrities look their best under the unforgiving scrutiny of high definition cameras. More importantly, it had to be backed by cutting-edge science, built to deliver real results, and formulated with the cleanest ingredients. After less than one year in the market, this remarkable age-defying system quickly became a coveted "go-to" for celebrities, elite Dermatologists, Beverly Hills plastic surgeons, and Beauty Editors at top magazines. Now, Airelle® has partnered with NHT Global to bring Hollywood's best-kept secret to you.

THE LINEUP

Age-Defying Facial Serum

Super concentrated formulation that tightens and plumps

Intense Hydrating Repair Complex

Rescue application that hydrates, firms, and restores skin's moisture barrier

Age Defying Eye & Lip Treatment

Firms and smooths delicate areas around eyes and lips

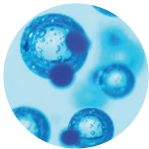

GROUNDBREAKING SCIENCE

Airelle® is powered by Berrimatrix®, a super antioxidant compound derived from Maine blueberries proven to defend against the appearance of Infrared A-induced photoaging. Because Infrared rays penetrate deeper into the dermis than UVA or UVB rays, they can negatively impact collagen and wrinkle formation.

In a groundbreaking in vitro study published in the *Journal of Drugs in Dermatology* (JDD), a dosage of 0.01% Berrimatrix® reduced Infrared A (IRA)-induced skin damage by 68%. The unique protective abilities of Berrimatrix® offers tremendous potential for improving the appearance of multiple signs of premature aging.
